

The IgG4ward! Foundation 6th International Symposium on IgG4-related disease

Cambridge, Massachusetts
October 8 - 10, 2026

THURSDAY OCTOBER 8

MORNING SESSION

08:00 AM	Welcome	Speaker: John Stone	
08:20 AM	Overview of the IgG4ward! Foundation international guidelines on the diagnosis, treatment, and management	Speaker: Arezou Khosroshahi	Moderator: John Stone
08:40 AM	Diagnosis guidelines highlights	Speakers: Diagnosis Group Leaders	Moderator: John Stone
09:40 AM	Break		
10:00 AM	New thinking about the pathology of IgG4-RD	Speakers: Ingeborg Bajema, Yoh Zen	Moderator: Adam Killian
10:45 AM	Retroperitoneal fibrosis: what are the biggest challenges and how do we circumvent them?	Speakers: James Tomlinson & Augusto Vaglio	Moderator: Tobias Alexander
12:00 PM	Lunch		

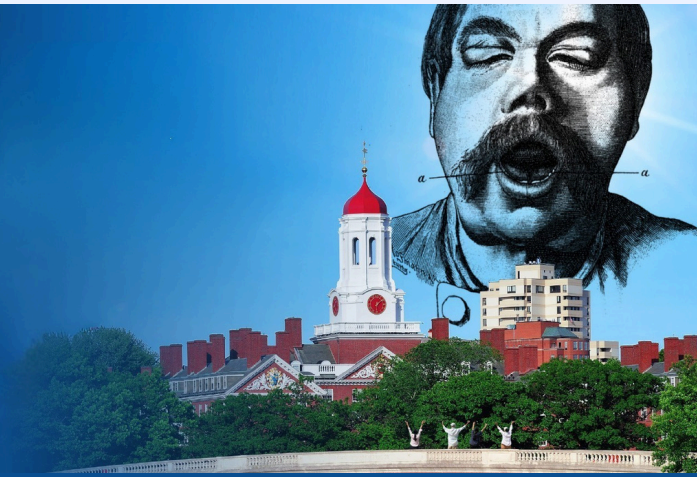

AFTERNOON SESSION

1:15 PM	The pathophysiology of IgG4-RD	Speaker: Cory Perugino	Moderator: Shiv Pillai
02:00 PM	A knock-in mouse model of IgG4-RD	Speaker: Bernard Malissen	Moderator: Cory Perugino
02:30 PM	Long-term outcomes in type 1 autoimmune pancreatitis	Speaker: Atsushi Masamune	Moderator: Matthias Löhr
03:00 PM	Managing exocrine pancreatic insufficiency	Speaker: Yasmin Barco-Hernandez	Moderator: Yuzo Kodama
03:30 PM Break			
03:50 PM	What is the long-term prognosis of IgG4-RD?	Speaker: Wen Zhang	Moderator: Hisanori Umehara
04:20 PM	Presentations of top abstracts	Speakers: Presenters	Moderator: Kazuichi Okazaki
05:00 PM	Poster viewing session		
07:00 PM	Conclude for the day		
AFTER 07:00 PM Speakers' dinner and industry dinners			

The IgG4ward! Foundation 6th International Symposium on IgG4-related disease

Cambridge, Massachusetts
October 8 - 10, 2026

FRIDAY OCTOBER 9

MORNING SESSION

08:00 AM	Treatment guidelines highlights	Speakers: Treatment Group Leaders	Moderator: Shingo Nakayamada
09:00 AM	The granzyme K story: Is this T cell the disease linchpin?	Speaker: Vinay Mahajan	Moderator: Shiv Pillai
09:30 AM	Which B lymphocytes are the key players in IgG4-RD - and what are they doing?	Speaker: Tobias Lanz	Moderator: Shiv Pillai
10:00 AM	Break		
10:20 AM	Emerging insights into the genetics of IgG4-RD	Speaker: Sakshi Agarwal	Moderator: Shiv Pillai
11:00 AM	Tph cells versus T-follicular helper cells in IgG4-RD	Speaker: Deepak Rao	Moderator: Cory Perugino
11:40 AM	Autoantibodies and autoantigens in IgG4-RD	Speaker: Federica Bonaso	Moderator: Masafumi Moriyama

12:20 PM - Symposium photo in Harvard Yard, followed by lunch on your own in
01:45 PM Harvard Square

AFTERNOON SESSION

1:45 PM	Biggest lessons and recent data from MITIGATE	Speaker: Yoshiya Tanaka	Moderator: Emanuel Della Torre
---------	---	-----------------------------------	--

02:15 PM	Biggest lessons and recent data from INDIGO	Speaker: Luke Chen	Moderator: Mollie Carruthers
----------	---	------------------------------	--

03:30 PM BREAK

03:00 PM	Progress in current trials (RILIEF, ACE1831, other)	Speaker: Mollie Carruthers	Moderator: John Stone
----------	---	--------------------------------------	---------------------------------

03:30 PM	Next-generation immune reset in autoimmune disease: Cell-based and bi-specific strategies targeting B cells and possible application in IgG4-RD	Speaker: Max König	Moderator: John Stone
----------	---	------------------------------	---------------------------------

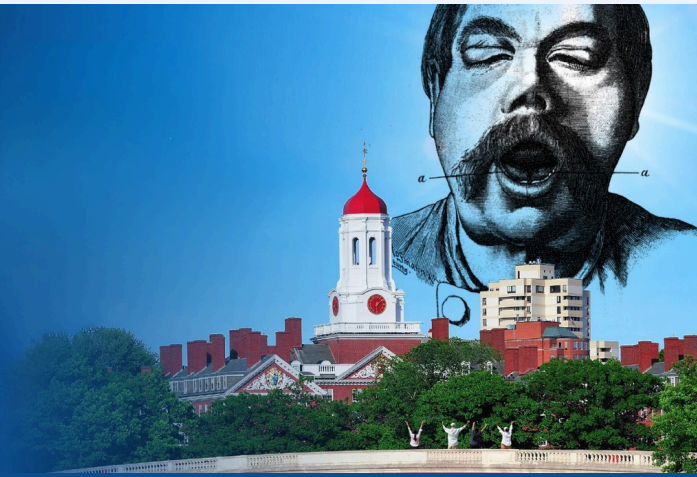

04:30 PM Conclude For The Day

06:00 PM - 09:00 PM Symposium soirée at The Liberty Hotel

The IgG4ward! Foundation 6th International Symposium on IgG4-related disease

Cambridge, Massachusetts
October 8 - 10, 2026

SATURDAY OCTOBER 10

MORNING SESSION

08:00 AM	Management guidelines	Speakers: Management Group Leaders	Moderator: Lingli Dong
09:00 AM	A consideration of disease subsets in IgG4-RD?	Speaker: Zach Wallace	Moderator: Mikael Ebbo
09:30 AM	On the contrary, IgG4-RD is not a pre-malignant condition	Speaker: Guy Katz	Moderator: Alexander Kleger
10:00 AM	Break		
10:15 AM	How do we diagnose and manage IgG4-Related sclerosing cholangitis	Speaker: Yuzo Kodama	Moderator: Omer Karadag
10:45 AM	Do overlap conditions between IgG4-RD and other discrete diseases truly exist?	Speaker: John Stone	Moderator: Nicolas Schleinitz
11:15 AM	Managing the atopic features of IgG4-RD: interactions of IgG4-RD with eosinophils, IGE, and Th2 inflammation	Speaker: Emanuel Della Torre	Moderator: Mitsuhiro Kawano

12:00 PM Lunch

AFTERNOON SESSION

1:15 PM	The natural history of AIP by imaging	Speaker: Avinash Kambadakone	Moderator: Emma Culver
---------	---------------------------------------	--	----------------------------------

01:45 PM	Coronary vasculitis and periarteritis in IgG4-RD: How do we diagnose, treat, and manage it?	Speaker: Wen Zhang	Moderator: Matt Baker
----------	---	------------------------------	---------------------------------

02:15 PM BREAK

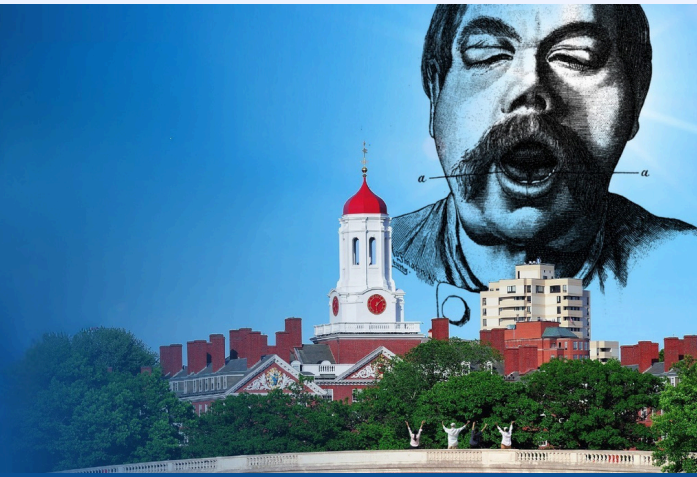

02:45 PM	What will the treatment and management of IgG4-RD look like in 2030?	Speaker: Matt Baker	Moderator: John Stone
----------	--	-------------------------------	---------------------------------

03:15 PM	Identification of the seventh symposium site in 2028 & Closing remarks Closing remarks	Speaker: John Stone	
----------	---	-------------------------------	--

The IgG4ward! Foundation 6th International Symposium on IgG4-related disease

Cambridge, Massachusetts
October 8 - 10, 2026

SATURDAY OCTOBER 10

MORNING SESSION

08:00 AM	Management guidelines	Speakers: Management Group Leaders	Moderator: Lingli Dong
09:00 AM	A consideration of disease subsets in IgG4-RD?	Speaker: Zach Wallace	Moderator: Mikael Ebbo
09:30 AM	On the contrary, IgG4-RD is not a pre-malignant condition	Speaker: Guy Katz	Moderator: Alexander Kleger
10:00 AM	Break		
10:15 AM	How do we diagnose and manage IgG4-Related sclerosing cholangitis	Speaker: Yuzo Kodama	Moderator: Omer Karadag
10:45 AM	Do overlap conditions between IgG4-RD and other discrete diseases truly exist?	Speaker: John Stone	Moderator: Nicolas Schleinitz
11:15 AM	Managing the atopic features of IgG4-RD: interactions of IgG4-RD with eosinophils, IGE, and Th2 inflammation	Speaker: Emanuel Della Torre	Moderator: Mitsuhiro Kawano

12:00 PM Lunch

12:00 PM	Industry-Supported Scientific Session <i>SUPPORTED BY AMGEN</i>	Speaker: TBD	Moderator: TBD
----------	--	---------------------	-----------------------

AFTERNOON SESSION

01:45 PM	The natural history of AIP by imaging	Speaker: Avinash Kambadakone	Moderator: Emma Culver
----------	--	--	----------------------------------

02:15 PM	Coronary vasculitis and periarteritis in IgG4-RD: How do we diagnose, treat, and manage it?	Speaker: Wen Zhang	Moderator: Matt Baker
----------	--	------------------------------	---------------------------------

02:45 PM	What will the treatment and management of IgG4-RD look like in 2030?	Speaker: Matt Baker	Moderator: John Stone
----------	---	-------------------------------	---------------------------------

03:15 PM	Identification of the seventh symposium site in 2028 & Closing remarks Closing remarks	Speaker: John Stone	
----------	--	-------------------------------	--
